**Description**

With only 1,000 miles on the clock and just one previous owner, this 2025 Skoda Enyaq 85x SportLine, an all-electric four-wheel drive SUV, is practically brand new. It boasts a full dealership service history and Skoda manufacturer approval, ensuring its quality and reliability. The 85x SportLine trim comes with a host of desirable features, including the Maxx Package, which adds a branded sound system, head-up display, and parking assistance with a 360-degree camera. You'll also appreciate the heated steering wheel and memory seats. The vehicle is equipped with full LED Matrix Beam headlights with variable light distribution, predictive adaptive cruise control with traffic jam assist, heated front seats, and wireless Smartlink with Android Auto.

The Skoda Enyaq 85x SportLine offers a long range of 334 miles when new, meaning fewer stops on long journeys. Charging is convenient, with a full charge at home taking around 12 hours using a 7kW charger, while public charging can take as little as 28 minutes to reach 80%. The large boot space makes it more practical than similar vehicles, easily accommodating luggage and shopping. Furthermore, acceleration from 0-60mph in just 6.5 seconds means it is quicker than other comparable vehicles.
