Description

With only one previous owner and low mileage of just 13399 miles for a 2021 registered vehicle, this Volkswagen e-up! in e-up! trim represents a compelling opportunity. As a Volkswagen manufacturer-approved vehicle, this electric e-up! comes with the assurance of quality. It boasts a range of features, including the Winter Pack with heated seats, the Cruise and Park Pack that adds front and rear parking sensors, and a rear camera to make parking a breeze. Stay connected with Bluetooth telephone and audio connectivity, and enjoy a comfortable environment with climate control and manual air conditioning.

The e-up!'s strengths lie in its usability. The 37 kWh battery offers a maximum range of 161 miles when new, making it ideal for city driving and short commutes. Charging is convenient, taking just 5 hours 30 minutes using a 7kW home charger. For those needing a quicker top-up, public charging

from empty to 80% can be achieved in approximately 1 hour and 4 minutes.

Purchasing a new vehicle can sometimes be a very stressful process, not with Marshall Volkswagen!

Enquire on one of our vehicles and one of our professional members of the sales team will pick up your enquiry. You will then receive a personalised video of the vehicle showing you all of the features and benefits of that particular vehicle which are important to you. Nothing is ever too much for us, we will always go over and above for our customers.

You also want that peace of mind that the vehicle of interest is a quality, safe and reliable vehicle? All vehicles undergo a comprehensive series of stringent tests and inspections, HPI checks, bodywork checks along with a comprehensive warranty provided.

30-day / 1, 000 mile satisfaction guarantee

12-month unlimited mileage warranty

12-month Volkswagen Assistance

Carefully selected and verified with over 150 checks

Latest software upgrades

Volkswagen Genuine parts
